INTRODUCTION

The Indira Gandhi Technological and Medical Sciences University (IGTAMSU) was established in the year 2012 at Ziro in the Lower Subansiri District, Arunachal Pradesh under the provisions of the Indira Gandhi Technological and Medical Sciences University Act 2012 (Act 6 of 2012). This Act was passed in the Eighth Session of the Fifth Legislative Assembly of Arunachal Pradesh and received the Assent of the Hon'ble Governor of Arunachal Pradesh on 26th May 2012. The Arunachal Pradesh Gazette (Extraordinary) No. 99, Vol. XIX dated 30th May 2012 published the Notification regarding the Indira Gandhi Technological and Medical Sciences University, Arunachal Pradesh. Presently the University is operating from its campus located near SSB Gate, Ziro, Arunachal Pradesh. The University is also continuously expanding its physical and human infrastructure in order to meet the challenges of the frenetic pace of growth that it has been witnessing ever since it came into being. The management of the University is confident of creating a truly world-class academic infrastructure in the state of Arunachal Pradesh.

Apart from its unwavering adherence to the highest standards of professional ethics, it is also bonded to the idea of pursuing academics of the highest quality. Towards that end, it has employed highly qualified faculty members who are encouraged to excel in their respective academic domains. The top management of the University, consisting of Chancellor Dr. Markandey Rai, Pro-Chancellor Dr. Utkarsh Sharma, and Vice-Chancellor Dr. Sidharth Shankar, always 'go the extra mile' in order to facilitate the pursuit of academic excellence. Taking into account the need of the hour, the University has decided to focus upon employment-oriented courses. It aims to truly democratize the tertiary education sector by bringing high-quality education opportunities to the doorsteps of the youth that too at a price point that is truly affordable for everyone. The Government of India has estimated that by the end of the next decade, India would need to expand its pool of highly trained personnel by an additional 40 Crore. Such a gargantuan task cannot be accomplished by any single institution, not even the Government, acting in isolation. Therefore, it becomes imperative that the entire educational machinery of the nation starts acting not just in unison but also in a well-defined direction.

In this context, Indira Gandhi Technological and Medical sciences University (IGTAMSU) has decided to take a leading role, especially in the north-eastern part of the country, and thereby help the nation realize its cherished goal of emerging as the Vishwa Guru, as the healer, teacher, and innovator for managing different issues of the world.

OUR MENTORS

DR. MARKANDEY RAI

THE CHANCELLOR

Welcome to Indira Gandhi Technological and Medical Sciences University (IGTAMSU), situated in the serene Himalayan valley of Ziro, Arunachal Pradesh. We are delighted to see the enthusiasm among youngsters about the various courses offered by our university. We are confident that your time at IGTAMSU will be an enriching educational experience that would nurture your curiosity. Over and above the academic value addition that you would undoubtedly receive at IGTAMS, your stay in Ziro will be an opportunity to connect with nature and find purpose in life. We at IGTAMSU believe that in the 21st Century, we urgently need to adopt a new way of life that restores our relationship with nature. Our home planet is the only one we have, and we must preserve its natural equilibrium that has sustained life for eons. Our pursuit of technological advancement has unwittingly damaged the earth, and we must put a stop to this foolish endeavour. It is rather concerning that we have not done so yet, but it is also an opportunity for the youth of today to lead the way and demonstrate their future.

At IGTAMSU, we are committed to producing a new generation of global citizenry that can lead the world into a promising era of sustainability and equity. What sets us apart from other universities is our focus on developing leaders who possess emotional intelligence and intellectual prowess, not just technical skills. The world needs a super-competent and efficient leadership to guide the global society in a balanced and humane manner, and we help incubate such a leadership. The world is now hyper-connected with an explosion of media access to all corners of the world. While this has led to some negative consequences, it also presents for ideas to spread quickly and seamlessly from the source to the rest of humanity. At IGTAMSU, we aim to use modern technology to disseminate noble ideas to the world at large.

We believe youngsters are the biggest stakeholders in the future of the world and they must be give a chance to shape it. IGTAMSU functions in accordance with this philosophy. It is therefore a matter of great pleasure for me to invite all future leaders, all future agents of constructive change in human society, to come and join us, and be a part of this far-reaching initiative to shape the world of tomorrow. We therefore take this opportunity to urge the youth of today to take full advantage of this possibility and be a part of the change that they wish to see in the world, and which the world so desperately needs.

OUR MENTORS

DR. UTKARSH SHARMA

PRO CHANCELLOR

As the Pro-Chancellor of this University, We are sending this Message to urge the youth, the leaders of tomorrow, to take full advantage of the excellent and emerging courses that our university has to offer. In today's rapidly changing world, it is more critical than ever that students are equipped with the knowledge and skills needed to succeed in the emerging hyper-competitive job market. We at Indira Gandhi Technological and Medical Sciences University (IGTAMSU) offer a wide range of beautifully structured courses designed to give an edge in the Twenty first Century job market. Whether it is engineering, health sciences, business, law, or any other field, our university has the perfect blend of study programs for you. Courses offered by us not only provide the students with a solid foundation in modern science & technology, they also enable the students become grounded in the infinite wisdom contained in traditional systems of knowledge.

Our faculty members come from diverse backgrounds, ranging from those who have pursued academics as the only vocation in their lives, to those who have spent a solid chunk of their working lives in corporate sector / Government. What unites this diverse crowd is an unshakeable commitment to the cause of expanding the reach of modern, high-quality education to all corners of India and the world. However, in order for India to be able to fully exploit those opportunities, it is important for us to invest in our people, to make sure that our human resource is of the quality that would be required for India to be successful.

The Government of India, as well as various State Governments are undertaking a host of initiatives, reform measures to prepare our country to fully exploit the emerging opportunities. However, the scale of things to do is so large that the only way to successfully execute what needs to be done is for all institutions, Governments, and the wider civil society to work in tandem, in a coordinated fashion. Working in silos is no longer going to be sufficient. It is in this context that IGTAMSU has taken up the challenge of creating a truly world-class institution of higher learning, built on values, and geared to face the challenges of this century.

We would therefore exhort all young minds to come and explore the beautiful world of leaning and intellectual awakening that awaits you at IGTAMSU. It would not just be a process of knowledge acquisition, but, an investment for your future which is never going to be wasted. We gurantee success of all students.

OUR MENTORS

SHRI PRASANT ROY

REGISTRAR

It is a matter of great pride and pleasure to extend a warm welcome to all aspiring students seeking admission to various professional programmes at Indira Gandhi Technological and Medical Sciences University (IGTAMSU) for the academic session 2025-26. As a premier institution dedicated to excellence in professional education, IGTAMSU stands as a beacon of learning, innovation, and skill development in the region. Our University is committed to providing a seamless administrative and academic experience, offering a diverse array of programmes across various disciplines with a special emphasis on Medical, Nursing, Paramedical, and Technological sciences.

In alignment with the National Education Policy (NEP) 2020, our curriculum is designed to be flexible, learner-centric, and industry-aligned, ensuring that our graduates are not just degree-holders but competent professionals ready to meet global challenges. IGTAMSU continues to strengthen its academic framework and physical infrastructure to provide a conducive environment for holistic growth. This includes advanced laboratories for clinical and technical training, comprehensive digital and physical library resources to support research, and active student support services such as Career Counselling and Placement cells that guide you at every step of your journey.

The Office of the Registrar ensures that all academic processes, from admissions to examinations, are conducted with the highest degree of transparency and efficiency. We have streamlined our admission procedures to be inclusive and merit-based, providing a level playing field for all applicants. Furthermore, we believe in the power of synergy through various Memoranda of Understanding (MoUs) and collaborations with leading healthcare providers and industrial organizations, providing our students with the essential practical exposure and internship opportunities vital in today's competitive job market.

As you embark on this transformative journey with us, I assure you that the entire administrative team at IGTAMSU is dedicated to supporting your aspirations. We aim to nurture individuals who are not only professionally skilled but also ethically grounded and socially responsible. I wish all prospective students and scholars the very best in their academic pursuits. Let us work together to shape a brighter future for yourselves, for the University, and for society at large.

IGTAMSU
School & College of Nursing (SCON)

The School and College of Nursing at Indira Gandhi Technological and Medical Sciences University (IGTAMSU) is a premier institution dedicated to excellence in nursing education, research, and clinical training. Established with the vision of strengthening the healthcare workforce in Arunachal Pradesh and the Northeast region, the institution offers a comprehensive range of nursing programs, including GNM (General Nursing Midwifery) and BSc Nursing (Bachelor of Science in Nursing) designed to meet national and global standards.

With a firm commitment to developing competent and compassionate nursing professionals, IGTAMSU School and College of Nursing integrate academic rigor with extensive hands-on training. The institution is supported by a team of highly qualified and experienced faculty members who provide strong mentorship and uphold the highest standards of teaching and practice. Modern classrooms, well-equipped laboratories, high-fidelity simulation facilities, a resource-rich library, and access to diverse clinical settings ensure that students receive holistic and dynamic learning experiences.

The institution actively engages in community health initiatives, school health programs, outreach camps, and national health missions, offering students valuable exposure to public health systems and grassroots-level care. Through its emphasis on ethical practice, research orientation, leadership development, and community responsibility, the IGTAMSU School and College of Nursing prepares graduates who excel as clinicians, educators, leaders, and lifelong learners.

With its strong academic foundation, supportive learning environment, and commitment to societal well-being, the IGTAMSU School and College of Nursing continues to shape the future of nursing by empowering students to serve with knowledge, skill, integrity, and compassion.

D.O. No.F.2-71/2022 (CPP-II) (C-114546) **12th June, 2024 / 22 ज्येष्ठ, 1946**

Subject: Fee Refund Policy 2024-25

आदरणीय महोदया/महोदय,

The University Grants Commission receives many representations/complaints from students/parents on the non-refund of fees by the Higher Education Institutions (HEIs) on cancellation/withdrawal of admissions.

2. Students should be allowed a full refund of fees within a specified period to enable them to opt for a course of their choice.

3. The Commission has considered the matter in its 580th meeting held on 15 May 2024, and after considering the relevant factors decided, the following fee refund policy for the academic session 2024-25:

a. Notwithstanding anything contained in any guidelines/ prospectus/ notification/ schedule, a full refund of fees shall be made by the HEIs on account of all cancellations of admissions/migrations of students up to 30 September 2024 and with a deduction of not more than Rs. 1,000, as a processing fee, up to 31 October 2024.
b. It shall apply to all higher education institutions, whether established or incorporated by or under a Central Act or a State Act, and every institution recognized by the University Grants Commission under clause (f) of Section 2 of the University Grants Commission Act, 1956 and to all institutions deemed to be a University declared as such under Section 3 therein and to all higher education institutions affiliated to a University.
c. These guidelines would also be applicable to organizations, consortiums, committees, associations, etc., constituted for the purpose of conducting counselling or processing admissions and collecting fees on behalf of participating HEIs, and the HEI concerned will be responsible for refund fees.
d. For any admission schedule extending/commencing beyond/after 31 October 2024, the provisions contained in the UGC Notification issued in October 2018 on Refund of Fees and Non-Retention of Original Certificates shall apply (reproduced below for ready reference):

Category	Percentage of Refund of fees*	Point of time when notice of withdrawal of admission is received in the HEI
(1)	100%	15 days or more **before** the formally notified last date of admission
(2)	90%	Less than 15 days **before** the formally notified last date of admission
(3)	80%	15 days or less **after** the formally notified last date of admission
(4)	50%	30 days or less, but more than 15 days **after formally** notified last date of admission
(5)	00%	More than 30 days **after** formally notified last date of admission

Cont...

e. This policy will remain in force for subsequent academic sessions until the issuance of a revised policy by the UGC.

4. It may also be noted that the UGC has notified the Redressal of Grievances of Students Regulations, 2023, wherein *"delay in, or denial of, the refund of fees due to a student who withdraws admission within the time mentioned in the prospectus, subject to guidelines, if any, issued by the Commission, from time to time"* has been defined as one of the grievances.

5. The Higher Education Institutions are requested to ensure compliance with the fee refund policy for the academic session 2024-25 and redress any grievance by the provisions of the University Grants Commission (Redressal of Grievances of Students) Regulations, 2023.

6. Any HEI violating the provisions of UGC Fee Refund Policy 2024-25 shall be liable for punitive action as notified in Clause 5 of the UGC Notification on Refund of Fees and Non-Retention of Original Certificates issued in October 2018.
